Appointment Module
Purpose:
This module allows students to book, manage and track health appointments on campus.
Features:
1. Book an appointment with available doctors.
2. View upcoming appointments.
3. View rescheduled or cancelled appointments.
4. Receive notifications and reminders.
Expected Users:
- Students
- Faculty members
- Campus healthcare staff
$ cd ..

Subject Name: Application Build and Release Automation Lab
Project Name: Campus Health Appointment System
Semester: 5th Semester
```

Conflict Resolution – Reference

Use this page only as a clear reference for the Git conflict markers.

```
CONFLICT (content): Merge conflict in health_info.txt
```

```
<<<<<< HEAD
```

```
Project Name: Campus Student Health Appointment System
```

```
=====
```

```
Project Name: GLA HealthTech Campus Appointment System
```

```
>>>>>> system-update
```

After resolving the conflict, remove the three marker lines

and keep the required final version of the content.

Student: Nitika | Roll No.: 2415001891

This is an explanatory reference, not a fabricated terminal output.
